## Housekeeping

- > This sheet provides estimates only and the total price you pay can be higher or lower based on other factors, such as applied coupons, finding discounted shoes, additional work / requests, etc.
- > For the most accurate pricing, be sure to add everything that you will require together - base shoe price, paint fee, art category (based on canvas or leather shoe type), and delivery and fees are mandatory costs to factor. Add-ons are optional.
- > A form is still required to be filled out prior to me fulfilling your order, please fill it out as accurately as possible to get the correct price and deposit amount for what you're seeking.
- > If I am providing the shoe, the deposit will be the price of the shoe itself. If I'm not, it is half the total price of your work and add-ons. It is nonrefundable and I will not begin your order until it is paid.
- > Taxes and fees are mandatory additions, and are considered just as they would be for any other online or in-person purchase.
- > Please read the entirety of the FAQ page prior to placing an order. It includes my policies, care instructions, timeline to completion, etc. If you have additional questions, please contact me via email or socials.
- > Note: My profit is only the price of the art, all other things, such as shoe prices, add-ons, fees, etc. are prices to cover those costs. I have done my best to price things fairly for you while still paying myself and what I owe 3rd parties to make it happen.. Thank you for supporting!
